to you**

The Practice At Deer Creek

In 24 years of practicing equine veterinary medicine, the driving force that continues to motivate me is how much I care. The caring I am talking about is the heart I have for all of God's creatures, especially our horse friends. It is important to me to keep our animals healthy through preventative health management. However, when situations arise that create illness or unsoundness I believe in resolving the problem in a timely manner while considering the specific needs of both horse and owner. As a business owner my goal is to provide you with caring, professional service from all of the doctors and staff at Deer Creek Equine Clinic.

If we are just meeting you for the first time we thank you for the opportunity and hope you become one of the many long term relationships we have been blessed with over the years.

Cynthia A. Arledge, DVM

Comprehensive Care

The veterinarians at Deer Creek Equine are all highly trained in equine medical care. The fact we are dedicated to the successful recovery of our many equine clients, shows the genuine care in the services we provide.

The clinic has advanced diagnostic tools and equipment to help determine the best treatment options available.

We pride ourselves on our collaborative, comprehensive care as a group practice. When it is in the horse's best interest, we will refer the owner to the leading experts in the field to get the diagnosis and treatment that is needed.

Our Promise to You

At Deer Creek, we are dedicated to providing quality and compassionate care for the equine patient in south central Virginia.

Whether you are a backyard horse hobbyist, a competitive equestrian or somewhere in between, your equine companions and athletes deserve the best veterinary health care available.

We understand your relationship with your equine partner, that is why we treat all our clients with the professionalism and compassionate care they deserve.
